

Multiple Choice

1. **Answer:** A

Options: A) Figurehead, leader and liaison; B) Spokesperson, leader, coordinator; C) Director, coordinator, disseminator; D) Communicator, organiser, spokesperson

Note: The correct answer identifies the three interpersonal roles of managers as figurehead, leader, and liaison, which are essential functions in establishing relationships, building team dynamics, and representing the organization in various contexts.

2. **Answer:** C

Options: A) Breadth, Clarity, Accuracy; B) Disclosure, Detail, Accuracy; C) Disclosure, Clarity, Accuracy; D) Disclosure, Clarity, Efficiency

Note: The correct answer is supported by Schnackenberg and Tomlinson's framework, which identifies disclosure, clarity, and accuracy as essential criteria for evaluating the effectiveness and trustworthiness of corporate transparency practices.

3. **Answer:** C

Options: A) market share strategy; B) penetration pricing strategy; C) strategy that focuses on non-price benefits; D) strategy to expand the overall market

Note: Firms that see themselves as market leaders in product quality prioritize non-price benefits to differentiate their offerings and enhance perceived value, thereby justifying premium pricing and fostering customer loyalty.

4. **Answer:** C

Options: A) Product-oriented; B) Person-oriented; C) Idea-oriented; D) Message-oriented

Note: Idea-oriented advertising campaigns are designed to promote a specific message or cause, aiming to engage and mobilize public support rather than simply selling a product or service.

5. **Answer:** C

Options: A) Dior; B) Givenchy; C) Chanel; D) Lacroix

Note: Chanel is known for its strong emphasis on protecting its brand image and intellectual property, which led it to sue for damages to its reputation after being accused of design theft.

True / False

6. **Answer:** False

Options: A) True; B) False

Note: Consumer competence refers to the ability of individuals to understand and evaluate product features and benefits, not a lack of this ability.

7. **Answer:** True

Options: A) True; B) False

Note: A work group with clearly defined tasks and distant line managers operates independently because it has the autonomy to make decisions and manage its workflow without direct oversight.

8. **Answer:** False

Options: A) True; B) False

Note: The American flag represents national identity and symbolism rather than a stereotype of American culture and behavior, which encompasses a much broader and more diverse range of characteristics and values.

9. **Answer:** False

Options: A) True; B) False

Note: A quality circle primarily focuses on involving workers in the discussion of quality improvement and problem-solving related to their work processes, rather than solely on production output and efficiency targets set by management.

10. **Answer:** False

Options: A) True; B) False

Note: An organisational structure typically aims to establish clear hierarchies and roles, which can limit individual autonomy in favor of operational efficiency and coordinated decision-making.

Long Form Response

11. **Answer:** The United Nations' Sustainable Development Goals (SDGs) play a crucial role in shaping the global sustainability agenda by providing a comprehensive framework for addressing pressing social, economic, and environmental challenges. Established in 2015, the SDGs consist of 17 interlinked goals that guide countries and organizations toward sustainable development by 2030. Their impact on business practices worldwide is significant, as companies increasingly align their strategies with the SDGs to enhance corporate responsibility, foster innovation, and meet consumer demand for sustainable products. By integrating the SDGs into their operations, businesses not only contribute to global sustainability efforts but also enhance their competitiveness and reputation in an increasingly conscientious market. Overall, the SDGs serve as a vital catalyst for transforming business practices toward more sustainable and ethical frameworks.

Note: correct because it accurately emphasizes the SDGs as a foundational framework for global sustainability efforts and illustrates their influence on business practices as companies adapt their strategies to align with these internationally recognized goals.

12. **Answer:** The typical order of managerial functions consists of planning, organizing, leading, and controlling, each playing a crucial role in effective management. Planning involves setting objectives and determining a course of action, providing a roadmap

for the organization. Organizing entails arranging resources and tasks to implement the plan, ensuring efficiency and clarity in roles. Leading focuses on motivating and guiding employees, fostering a positive work environment and effective communication. Finally, controlling involves monitoring progress and making necessary adjustments to stay aligned with goals, ensuring that performance meets expectations. Together, these functions create a cohesive framework that drives organizational success.

Note: correct because it accurately outlines the sequential order of managerial functions- planning, organizing, leading, and controlling- and explains how each function contributes to achieving organizational goals and ensuring effective management practices.
