

Multiple Choice

1. **Answer:** C

Options: A) 3 million; B) 14 million; C) 42 million; D) 124 million

Note: The correct answer of 42 million reflects the global estimate of individuals living with HIV/AIDS in 2020, highlighting the ongoing public health challenge posed by the epidemic and the importance of geographic and demographic factors in understanding its prevalence.

2. **Answer:** D

Options: A) 1; B) 7; C) 13; D) 19

Note: The correct answer is 19% because Ross Perot, running as a third-party candidate in the 1992 presidential election, ultimately received 19% of the popular vote, demonstrating the impact a third-party candidate can have in a predominantly two-party system.

3. **Answer:** C

Options: A) 26%; B) 41%; C) 56%; D) 71%

Note: The correct answer is 56% because a significant majority of US adults expressed concerns about the fairness and reliability of algorithmic decision-making in criminal risk assessments for parole, reflecting broader societal apprehensions regarding the ethical implications of using algorithms in judicial processes.

4. **Answer:** D

Options: A) China; B) United States; C) Indonesia; D) Pakistan

Note: In₂₀₁₇, Pakistan reported one of the highest under-five mortality rates globally due to factors such as inadequate healthcare infrastructure, high rates of poverty, and limited access to clean water and nutrition.

5. **Answer:** C

Options: A) 33%; B) 50%; C) 66%; D) 85%

Note: The correct answer of 66% reflects the significant public support among Americans for humanitarian aid to Japan after World War II, highlighting a post-war shift towards compassion and reconstruction despite potential domestic challenges such as food shortages.
