

Multiple Choice

1. **Answer:** B

Options: A) 12 years; B) 9 years; C) 6 years; D) 3 years

Note: The correct answer is 9 years because, as of 2020, global educational attainment data indicate that women of the same age as men have historically had lower average years of schooling, reflecting ongoing gender disparities in education.

2. **Answer:** D

Options: A) 10%; B) 30%; C) 50%; D) 70%

Note: The correct answer of 70% reflects a significant prevalence of bullying among children aged 13-15 in Egypt, indicating a serious social issue that was documented in studies conducted around that time, highlighting the need for targeted interventions in schools and communities.

3. **Answer:** C

Options: A) 260; B) 2,600; C) 26,000; D) 260,000

Note: The correct answer of 26,000 reflects the reported global fatalities from terrorism in 2017, as documented by various international security studies and databases that track and analyze terrorist incidents worldwide.

4. **Answer:** B

Options: A) 1.5 children per woman; B) 2.5 children per woman; C) 3.5 children per woman; D) 4.5 children per woman

Note: The correct answer of 2.5 children per woman reflects the global average fertility rate in 2015, indicating a trend of declining birth rates due to factors such as increased access to education and family planning, economic development, and changing social norms.

5. **Answer:** C

Options: A) 59%; B) 69%; C) 79%; D) 89%

Note: The correct answer of 79% reflects the significant cultural and religious influence in India, where a large majority of the population associates belief in God with morality and ethical behavior, as evidenced by survey data from 2019.
