

Multiple Choice

1. **Answer:** C

Options: A) 60%; B) 70%; C) 80%; D) 90%

Note: The correct answer of 80% reflects the significant global progress made in expanding electricity access, particularly in developing regions, as reported by organizations such as the International Energy Agency in their assessments of energy access worldwide.

2. **Answer:** C

Options: A) 10%; B) 20%; C) 30%; D) 40%

Note: The correct answer of 30% reflects the significant global challenge of water scarcity and contamination, highlighting that approximately 2.2 billion people lack access to safely managed drinking water services as reported by the World Health Organization and UNICEF.

3. **Answer:** A

Options: A) Lower respiratory infections; B) Preterm birth complications; C) Diarrheal diseases; D) Malaria

Note: Lower respiratory infections are the leading cause of death in children under five years old due to their high prevalence in low-income countries, where access to healthcare and preventive measures are often limited, leading to increased morbidity and mortality rates.

4. **Answer:** B

Options: A) 31%; B) 46%; C) 61%; D) 76%

Note: The correct answer of 46% reflects a significant portion of the American public's perception of state governance as equitable, indicating a complex relationship between citizens and their trust in government institutions as of 2019.

5. **Answer:** A

Options: A) 1.2 million; B) 2.4 million; C) 3.6 million; D) 4.8 million

Note: The correct answer of 1.2 million deaths annually from unsafe water as of 2019 is supported by data from the World Health Organization, which highlights the significant impact of waterborne diseases on public health, particularly in developing regions where access to clean water is limited.
