

Multiple Choice (10 marks)

1. The percentage of children in Vietnam (age 8) who reported physical punishment by teachers in the past week in 2009 was about what?
 - (a) 10%
 - (b) 20%
 - (c) 40%
 - (d) 80%
2. As of 2020, about what percentage of the world population practices open defecation?
 - (a) 2%
 - (b) 4%
 - (c) 9%
 - (d) 18%
3. As of 2015, about what percentage of the world's land area is forested?
 - (a) 15%
 - (b) 30%
 - (c) 45%
 - (d) 60%
4. Which of the following countries emitted the most CO₂ per capita in 2017?
 - (a) Japan
 - (b) Canada
 - (c) Russia
 - (d) Iran
5. As of 2016, about what percentage of adults aged 18 years or older were overweight?
 - (a) 10%
 - (b) 20%
 - (c) 40%
 - (d) 80%

True / False (10 marks)

Answer True or False

6. True or False: The Free Movement of Workers Regulation a different answer set out the main provisions on equal treatment of workers.
7. True or False: The three towers proposed will stand 23 storeys high and will be surrounded by smaller apartment blocks, office blocks and shops. There are also plans for a 15-storey hotel at the a different answer marina, and a 21-storey hotel on the north eastern corner of the city centre, as part of a £100 m development.
8. True or False: West was reportedly paid US\$3 million for his performance. West had previously participated in cultural boycotts, joining Shakira and Rage Against The Machine in refusing to perform in a different answer after the 2010 implementation of stop and search laws directed against potential illegal aliens.
9. True or False: Of the remaining land area, the state of Alaska owns a different answer, its entitlement under the Alaska Statehood Act.
10. True or False: After the U.S. won, Spain relinquished claim of sovereignty over territories, including Cuba. The U.S. administered Cuba as a protectorate until 1902. Several decades later in 1959, the corrupt Cuban government of U.S.-backed Fulgencio Batista was overthrown by Fidel Castro. Castro installed a Marxist-Leninist government allied with the Soviet Union, which has been in power ever since.

Long Form Response (20 marks)

Answer each question with a clear and complete explanation.

11. Read the following passage and answer the question: Incandescent bulbs are much less efficient than most other types of electric lighting; incandescent bulbs convert less than 5% of the energy they use into visible light, with standard light bulbs averaging about 2.2%. The remaining energy is converted into heat. The luminous efficacy of a typical incandescent bulb is 16 lumens per watt, compared with 60 lm/W for a compact fluorescent bulb or 150 lm/W for some white LED lamps. Some applications of the incandescent bulb deliberately use the heat generated by the filament. Such applications include incubators, brooding boxes for poultry, heat lights for reptile tanks, infrared heating for industrial heating and drying processes, lava lamps, and the Easy-Bake Oven toy. Incandescent bulbs typically have short lifetimes compared with other types... Question: What happens to the energy that an incandescent bulb does not convert into light?
12. Read the following passage and answer the question: Other legal factors that have been implemented to end and reduce child labour includes the global response that came into force in 1979 by the declaration of the International Year of the Child. Along with the Human Rights Committee of the United Nations, these two declarations worked on

many levels to eliminate child labour. Although many actions have been taken to end this epidemic, child labour in Africa is still an issue today due to the unclear definition of adolescence and how much time is needed for children to engage in activities that are crucial for their development. Another issue that often comes into play is the link between what constitutes as child labour within the household due to the cultural acceptance of children helping run the family business. In the end, there is a c...
Question: What is an issue in Africa with child labour definitions?
