

Multiple Choice

1. **Answer:** B

Options: A) 0.70%; B) 1.40%; C) 2.80%; D) 5.60%

Note: The correct answer of 1.40% reflects the global suicide mortality rate as reported by the World Health Organization in 2017, highlighting the significant public health issue posed by suicide worldwide.

2. **Answer:** B

Options: A) 80%; B) 40%; C) -40%; D) -80%

Note: The correct answer is based on historical data showing that at its peak, the approval ratings for school desegregation in the South were significantly lower-approximately 40% less-than those in the rest of the United States, reflecting regional differences in attitudes toward civil rights and integration during that era.

3. **Answer:** B

Options: A) 1.5 children per woman; B) 2.5 children per woman; C) 3.5 children per woman; D) 4.5 children per woman

Note: The correct answer of 2.5 children per woman reflects the global average fertility rate, which indicates that on average, women worldwide were having approximately 2.5 children, influenced by various factors such as access to education, healthcare, and family planning.

4. **Answer:** D

Options: A) Earthquakes; B) Volcanic activity; C) Wildfires; D) Floods

Note: Floods have caused more deaths in the 20 th century than any other natural disaster due to their frequency, widespread impact on human settlements, and the resulting humanitarian crises that often follow.

5. **Answer:** C

Options: A) 2%; B) 4%; C) 9%; D) 18%

Note: The correct answer is 9% because, according to the World Health Organization and UNICEF, approximately 673 million people worldwide were estimated to practice open defecation as of 2020, which represents about 9% of the global population.

True / False

6. **Answer:** True

Options: A) True; B) False

Note: According to the passage: Articles 46-53

7. **Answer:** True
Options: A) True; B) False
Note: According to the passage: local
