

Multiple Choice (10 marks)

1. What is the biggest cause of death in children under five years old (as of 2017)?
 - (a) Lower respiratory infections
 - (b) Preterm birth complications
 - (c) Diarrheal diseases
 - (d) Malaria
2. As of 2019, about what percentage of Germans say the relationship between the U.S. and Germany is good?
 - (a) 34%
 - (b) 49%
 - (c) 64%
 - (d) 79%
3. Total global healthcare expenditure is about what percentage of global GDP as of 2017?
 - (a) 1%
 - (b) 2%
 - (c) 5%
 - (d) 10%
4. In₁₉₄₈ how many Americans believed the Kinsey Report on Sexuality in the Male to be a bad thing?
 - (a) 92%
 - (b) 64%
 - (c) 27%
 - (d) 11%
5. As of 2019, about what percentage of people from Turkey agree that the state is run for the benefit of all the people?
 - (a) 36%
 - (b) 51%
 - (c) 66%
 - (d) 81%

True / False (10 marks)

Answer True or False

6. True or False: Vaccine development continued to accelerate, with the most notable achievement of the period being Jonas Salk's 1954 development of the polio vaccine under the funding of the non-profit National Foundation for Infantile Paralysis.
7. True or False: The army's most common vehicle is the a different answer (HMMWV), commonly called the Humvee, which is capable of serving as a cargo/troop carrier, weapons platform, and ambulance, among many other roles.
8. True or False: An FBI special agent is issued a Glock Model 22 pistol or a Glock 23 in .40 S&W caliber. If they fail their first qualification, they are issued either a Glock 17 or Glock 19, to aid in their next qualification. In May 1997, the FBI officially adopted the Glock .40 S&W pistol for general agent use and first issued it to New Agent Class 98-1 in October 1997.
9. True or False: S. Pacific Fleet, leaving eight American battleships out of action, 188 American aircraft destroyed, and 2,403 American citizens dead. At the time of the attack, the U.S. was a different answer anywhere in the world, which means that the people killed or property destroyed at Pearl Harbor by the Japanese attack had a non-combatant status.
10. True or False: In comparison with data available from other relevant populations in the region, Jews were found to be more closely related to groups in the north of the Fertile Crescent. The authors also report on Eu₁₉ (R₁ a) chromosomes, which are very frequent in Central and Eastern Europeans (a different answer) at elevated frequency (12).

Long Form Response (20 marks)

Answer each question with a clear and complete explanation.

11. Read the following passage and answer the question: Because of its simple atomic structure, consisting only of a proton and an electron, the hydrogen atom, together with the spectrum of light produced from it or absorbed by it, has been central to the development of the theory of atomic structure. Furthermore, the corresponding simplicity of the hydrogen molecule and the corresponding cation H⁺ 2 allowed fuller understanding of the nature of the chemical bond, which followed shortly after the quantum mechanical treatment of the hydrogen atom had been developed in the mid-1920 s. Question: What theory is the hydrogen atom a big part of?
12. Read the following passage and answer the question: Southeast Raleigh is bounded by downtown on the west, Garner on the southwest, and rural Wake County to the south-east. The area includes areas along Rock Quarry Road, Poole Road, and New Bern Avenue. Primary neighborhoods include Chastain, Chavis Heights, Raleigh Country

Club, Southgate, Kingwood Forest, Rochester Heights, Emerald Village and Biltmore Hills. Time Warner Cable Music Pavilion (formerly Alltel Pavilion and Walnut Creek Amphitheatre) is one of the region's major outdoor concert venues and is located on Rock Quarry Road. Shaw University is located in this part of the city. Question: What concert venue is in the area?

End of Paper
