

Multiple Choice

1. **Answer:** D

Options: A) Canada.; B) Mexico.; C) the continental United States.; D) Alaska.

Note: Clovis points are primarily associated with archaeological sites in the continental United States, particularly in the Southwest and Great Plains regions, and there is no evidence of their presence in Alaska, which is geographically and culturally distinct from these areas.

2. **Answer:** B

Options: A) the introduction of Linear A script and the adoption of Linear B script; B) an earthquake and a volcanic eruption; C) the end of the Stone Age and the beginning of the Bronze Age; D) the discovery of bronze on the island, and the replacement of bronze by iron; E) the construction of the Palace of Knossos and its destruction

Note: The peak of Minoan civilization was significantly influenced by natural disasters, specifically an earthquake and a volcanic eruption, which marked the beginning and end of this period, respectively, highlighting the impact of environmental events on societal development.

3. **Answer:** B

Options: A) the Incas were suffering from a plague when Pizarro arrived.; B) the empire had never won the allegiance of the peoples it had conquered.; C) the Incas were already weakened by a civil war.; D) the Incas were expecting Pizarro and willingly surrendered to him.; E) he arrived with a superior force of more than 80,000 soldiers.

Note: Pizarro's conquest of the Inca Empire was facilitated by the empire's failure to integrate and gain the loyalty of its subject peoples, leading to internal dissent and lack of unified resistance against the Spanish invaders.

4. **Answer:** E

Options: A) steadily worsened.; B) was invented during this period.; C) evolved into a more sophisticated technology.; D) remained static without any changes.; E) changed only slightly.

Note: Hand axe technology remained relatively consistent during this period due to the stability of environmental conditions and the effectiveness of the tool for various tasks, leading to only minor modifications rather than significant advancements.

5. **Answer:** D

Options: A) Java Trench; B) Sunda Passage; C) Australia Trench; D) Wallace Trench; E) New Guinea Strait

Note: The correct answer is Wallace Trench because it refers to the deep underwater trench that separates the Australian continent from the islands of Southeast Asia, highlighting the significant geological and biological distinctions between the two regions, as identified by Alfred Russel Wallace.

True / False

6. **Answer:** True
Options: A) True; B) False
Note: According to the passage: Millennium Technology Prize
7. **Answer:** False
Options: A) True; B) False
Note: The correct answer is: Frederick W. Mote
8. **Answer:** True
