

Multiple Choice

1. **Answer:** B

Options: A) 1.8 million; 1.2 million; B) 2.5 million; 1.8 million; C) 1.4 million; 800,000; D) 4.5 million; 3.2 million; E) 2 million; 1.5 million

Note: The correct answer reflects the established timeline in human evolution, where *Homo habilis* is believed to have emerged approximately 2.5 million years ago, followed by *Homo erectus* around 1.8 million years ago, based on fossil evidence and archaeological findings.

2. **Answer:** D

Options: A) severe drought and a surge in warfare; B) increased rainfall and population migration to the Maya ceremonial centers; C) severe drought and increased storage of surplus food from agriculture; D) severe drought and a decline in construction at Maya ceremonial centers; E) increased warfare and the abandonment of the entire region

Note: The correct answer is supported by the evidence that periods of severe drought, indicated by variations in oxygen isotopes in stalagmites, led to decreased agricultural productivity, which in turn caused a decline in the construction and maintenance of Maya ceremonial centers.

3. **Answer:** A

Options: A) use of a calendar system based on celestial bodies; B) practice of mummification for the dead; C) ritual consumption of maize beer; D) construction of underground dwellings; E) ritual human sacrifice

Note: The Hohokam adopted a calendar system based on celestial bodies from Mesoamerican culture, as evidenced by their agricultural practices and ceremonial activities that aligned with astronomical events.

4. **Answer:** A

Options: A) Sunda; Sahul; B) Sunda; Wallacea; C) Gondwana; Beringia; D) Sunda; Gondwana; E) Beringia; Sunda

Note: The correct answer is based on the understanding that during the Pleistocene era, the landmasses of Java, Sumatra, Bali, and Borneo were part of a larger continental shelf known as Sundaland, while the land connecting Australia, New Guinea, and Tasmania was referred to as Sahul, highlighting the geographical and geological distinctions of these regions during that period.

5. **Answer:** A

Options: A) the discovery of an artifact in a museum or private collection; B) an archaeological site found underwater; C) a site where artifacts have been intentionally buried for preservation; D) all of the above; E) a site where artifacts have been moved and rearranged by humans or natural forces

Note: The discovery of an artifact in a museum or private collection indicates a primary

context because it provides direct evidence of the artifact's original use and significance, allowing historians to analyze it in relation to its cultural and historical background.

True / False

6. **Answer:** True

Options: A) True; B) False

Note: According to the passage: Two of the expeditions were successful, with Fort Duquesne and Louisbourg

7. **Answer:** False

Options: A) True; B) False

Note: The correct answer is: May 3

8. **Answer:** False

Options: A) True; B) False

Note: The correct answer is: Protestant Reformation

9. **Answer:** False

Options: A) True; B) False

Note: The correct answer is: Adam Johann von Krusenstern

10. **Answer:** False

Options: A) True; B) False

Note: The correct answer is: 999

Long Form Response

11. **Answer:** 1990

Note: Expected answer: 1990

12. **Answer:** proper names of the kings of Kish

Note: Expected answer: proper names of the kings of Kish

End of Answer Key
