 - (c) pumice and evidence of pyroclastic surges.
 - (d) the faunal assemblage from a site.
 - (e) an osteological comparative collection from a site.
4. Which of the following describes a key change in hominids beginning at least as early as *Homo erectus* that is probably related to increasingly larger brain size?
 - (a) cranial reduction
 - (b) decreased dentition
 - (c) microcephaly
 - (d) supraorbital cortex
 - (e) encephalization
5. The Shang Dynasty laid the foundation for a coherent development of Chinese civilization that lasted well into the:

- (a) 17 th century.
- (b) 14 th century.
- (c) 18 th century.
- (d) 21 st century.
- (e) 5 th century.

True / False (10 marks)

Answer True or False

6. True or False: The climate has become warmer in Montana and continues to do so. The glaciers in Glacier National Park have receded and are predicted to melt away completely in a few decades. Many Montana cities set heat records during July 2007, the hottest month ever recorded in Montana.
7. True or False: OTS, previously located at Lackland AFB, Texas until 1993 and located at Maxwell Air Force Base in Montgomery, Alabama since 1993, in turn encompasses two separate commissioning programs: Basic Officer Training (BOT), which is for line-officer candidates of the active-duty Air Force and the U.
8. True or False: The angled deck allows the installation of one or two "waist" catapults in addition to the two bow cats. An angled deck also improves launch and recovery cycle flexibility with the option of simultaneous launching and recovery of aircraft.
9. True or False: Examples include the apparent motion of the sun across the sky, the phases of the moon, the swing of a pendulum, and the beat of a heart. Currently, the international unit of time, the second, is defined by measuring the electronic transition frequency of a different answer (see below).
10. True or False: About 5% of the Nicaraguan population are indigenous.

Long Form Response (20 marks)

Answer each question with a clear and complete explanation.

11. Read the following passage and answer the question: The history of comics has followed different paths in different cultures. Scholars have posited a pre-history as far back as the Lascaux cave paintings. By the mid-20 th century, comics flourished particularly in the United States, western Europe (especially in France and Belgium), and Japan. The history of European comics is often traced to Rodolphe Töpffer's cartoon strips of the 1830 s, and became popular following the success in the 1930 s of strips and books such as The Adventures of Tintin. American comics emerged as a mass medium in the early 20 th century with the advent of newspaper comic strips; magazine-style comic books followed in the 1930 s, in which the superhero genre became prominent after Superman appeared in 1938. Histories of Japanese comics and cartooning (manga) propo... Question: Which superhero appeared in comics in 1938?

12. Read the following passage and answer the question: Several certification programs exist to support the professional aspirations of software testers and quality assurance specialists. No certification now offered actually requires the applicant to show their ability to test software. No certification is based on a widely accepted body of knowledge. This has led some to declare that the testing field is not ready for certification. Certification itself cannot measure an individual's productivity, their skill, or practical knowledge, and cannot guarantee their competence, or professionalism as a tester. Question: With several certifications out there that can be aquired, what is the one trait they all share?
