

Multiple Choice (10 marks)

1. What is the name of the lithic technology seen in the Arctic and consisting of wedge-shaped cores, micro-blades, bifacial knives, and burins?
 - (a) Ahrensburg Complex
 - (b) Solutrean Complex
 - (c) Aurignacian Complex
 - (d) Nenana Complex
 - (e) Gravettian Complex
2. The significance of Frere's discovery was that what he found was located:
 - (a) inside a previously undiscovered pyramid.
 - (b) in the depths of the ocean, near the remains of a sunken ship.
 - (c) on a remote island, far from known human settlements.
 - (d) on the surface, above the remains of extinct animals.
 - (e) beneath the remains of extinct animals.
3. What is one of the differences between simple foragers and complex foragers?
 - (a) Simple foragers employ domestication of animals.
 - (b) Complex foragers focus on a few highly productive resources.
 - (c) Complex foragers employ irrigation technology.
 - (d) Simple foragers use advanced hunting techniques.
 - (e) Complex foragers rely primarily on marine resources.
4. The Gault site in south-central Texas has produced evidence from 13,000 years ago that Paleoindians chose this location based on the:
 - (a) nearness of the site to navigable rivers and the Gulf coast.
 - (b) proximity to other Paleoindian settlements.
 - (c) presence of a large lake for fishing and transportation.
 - (d) nearby location of migratory routes of large mammals such as bison.
 - (e) proximity to a local source of chert for quarrying and making stone tools.
5. In₁₇₉₇, John Frere made a discovery that he described as:
 - (a) a new type of metal alloy.
 - (b) the earliest written documents.

- (c) the remains of a massive wooden ship believed to be Noah's Ark.
- (d) animal remains scattered on the surface of the ground.
- (e) the ruins of an ancient civilization under the sea.

True / False (10 marks)

Answer True or False

6. True or False: Until the a different answer century, religion played a significant role in university curriculum; however, the role of religion in research universities decreased in the 19 th century, and by the end of the 19 th century, the German university model had spread around the world.
7. True or False: The city grew out towards the west of the boundaries of the peninsula formed by the River Aare. The Zytglogge tower marked the western boundary of the city from 1191 until 1256, when the Käfigturm took over this role until 1345.

Long Form Response (20 marks)

Answer each question with a clear and complete explanation.

11. Read the following passage and answer the question: Modern botany is a broad, multidisciplinary subject with inputs from most other areas of science and technology. Research topics include the study of plant structure, growth and differentiation, reproduction, biochemistry and primary metabolism, chemical products, development, diseases, evolutionary relationships, systematics, and plant taxonomy. Dominant themes in 21 st century plant science are molecular genetics and epigenetics, which are the mechanisms and control of gene expression during differentiation of plant cells and tissues. Botanical research has diverse applications in providing staple foods, materials such as timber, oil, rubber, fibre and drugs, in modern horticulture, agriculture and forestry, plant propagation, breeding and genetic modification, in the synthesis of chemic... Question: What is are the main themes of present-day botany?

12. Read the following passage and answer the question: Differences in the settlement patterns of eastern and western North Carolina, or the Low Country and uplands, affected the political, economic, and social life of the state from the 18th until the 20th century. The Tidewater in eastern North Carolina was settled chiefly by immigrants from rural England and the Scottish Highlands. The upcountry of western North Carolina was settled chiefly by Scots-Irish, English, and German Protestants, the so-called "cohee". Arriving during the mid- to late 18th century, the Scots-Irish from what is today Northern Ireland were the largest non-English immigrant group before the Revolution; English indentured servants were overwhelmingly the largest immigrant group before the Revolution. During the American Revolutionary War, the English and Highland Sco... Question: Where was The Tidewater located?
