

Multiple Choice

1. **Answer:** B

Options: A) Female dancers; B) Female poets; C) Female goddesses; D) Female rulers; E) Female artisans

Note: Ghosa, Apala, and Lopamurda are recognized as female poets in the Rigveda, highlighting the presence and contributions of women in Vedic literature and philosophy.

2. **Answer:** A

Options: A) temperance.; B) self-control.; C) humility.; D) faith.; E) integrity.

Note: Epicurus argues that temperance is essential for achieving a life of pleasure and tranquility, as it allows individuals to moderate their desires and avoid the pain caused by excess, thereby establishing a foundation for all other virtues to flourish.

3. **Answer:** A

Options: A) to minimize damage incurred by all individual living beings.; B) to promote the functional integrity of ecosystems.; C) to minimize the suffering of all sentient creatures.; D) to ensure the survival of endangered species.; E) to minimize damage to the ozone layer.

Note: Baxter's argument emphasizes the importance of considering the impact of environmental decisions on all individual living beings, advocating for a balance that seeks to minimize harm rather than prioritize one group over another.

4. **Answer:** B

Options: A) Division; B) False sign; C) False cause; D) Hasty Generalization

Note: The term "ad novitatem" refers to the fallacy of appealing to novelty, which is categorized as a false sign because it suggests that something is valid or superior simply because it is new, rather than based on sound reasoning or evidence.

5. **Answer:** A

Options: A) The Recitation; B) The Prophecy; C) The Revelations; D) The Narrative; E) The Pillars

Note: The term "Qur'an" literally means "the Recitation" in Arabic, reflecting its nature as a text intended to be recited aloud as part of Islamic worship and its emphasis on oral transmission.

True / False

6. **Answer:** False

Options: A) True; B) False

Note: The phrase Guru-Panth refers specifically to the collective path of the Sikh

community led by the Guru, emphasizing shared spiritual practice rather than an individual journey toward personal enlightenment.

7. **Answer:** True

Options: A) True; B) False

Note: Nagel contends that many skeptical arguments stem from a misunderstanding of the nature of philosophical inquiry, particularly regarding the limits of knowledge and the interpretation of subjective experience.

8. **Answer:** True

Options: A) True; B) False

Note: Hume argues that justice is a social construct that derives its value from its utility in promoting social order and cooperation, rather than from any intrinsic moral qualities.

9. **Answer:** False

Options: A) True; B) False

Note: Baxter argues that while human satisfaction is an important consideration, it is not the sole metric for evaluating environmental success, as he emphasizes the need to consider ecological health and sustainability as well.

10. **Answer:** True

Options: A) True; B) False

Note: The statement is true because the Conservative branch of Judaism, established by Zacharias Frankel, emphasizes a 'Positive-Historical Judaism' approach that seeks to balance tradition and modernity, allowing for historical context to inform religious practice while maintaining commitment to Jewish law.

Long Form Response

11. **Answer:** To construct a truth table for the argument $\sim A \cdot \sim B, (A \vee C) \supset B \vee C$, we evaluate the premises and conclusion systematically. The argument is represented as follows: the conjunction $\sim A \cdot \sim B$ is true only when both A and B are false, while the disjunction $(A \vee C) \supset B \vee C$ is true if at least one of A, C, or B is true. The conclusion C must hold true in all scenarios where the premises are true for the argument to be valid. However, a counterexample arises when A, B, and C are all true; in this case, both premises are true, but the conclusion C does not follow since it is not a definitive consequence of the premises. Thus, the argument is invalid.

Note: The answer correctly identifies that the argument's validity depends on the truth values of the premises leading to the conclusion, demonstrating that the premises can be true while the conclusion is false, as illustrated by the counterexample where A, B, and C are all true, thus invalidating the argument.

12. **Answer:** In his article "Will Cloning Harm People?", Pence employs Kant's humanity formulation to argue that cloning is morally acceptable by emphasizing the intrinsic worth and dignity of all human beings. According to Kant, individuals should be

treated as ends in themselves and not merely as means to an end. Pence contends that cloning, when conducted ethically, can enhance human welfare by providing solutions to infertility and genetic diseases, thus respecting the autonomy and value of potential individuals. By framing cloning as a means to promote human well-being, Pence aligns with Kantian ethics, suggesting that the act of cloning can be justified if it acknowledges and preserves the humanity of the cloned individuals. Ultimately, this application of Kant's formulation positions cloning as a morally viable option that upholds human dignity rather than undermining it.

Note: correct because it accurately connects Pence's argument for the moral acceptability of cloning to Kant's humanity formulation by emphasizing the respect for human dignity and the potential benefits of cloning in promoting human welfare and autonomy.
