True / False (10 marks)

Answer True or False

6. True or False: Moore argues that many past philosophers commit the naturalistic fallacy when defining the concept of good.
7. True or False: Mill asserts that the distinction between justice and other moral obligations aligns with the differentiation of strong and weak duties.
8. True or False: Baxter argues that introducing new species is essential for restoring ecological balance in addressing environmental issues.
9. True or False: Metz asserts that dignity is fundamentally rooted in the capacity for communal or friendly relationships.
10. True or False: Macedo emphasizes that societies have a duty to ensure equal wealth for all individuals, including nonmembers.

Long Form Response (20 marks)

Answer each question with a clear and complete explanation.

11. Discuss how the principle that "the minor premise must affirm the antecedent or deny the consequent" can be applied to evaluate the validity of a red herring argument in philosophical discourse.
12. Evaluate the validity of the argument $H \rightarrow (\sim I \rightarrow J)$, $H \rightarrow \sim J \rightarrow \sim I$ using indirect truth tables. If invalid, provide a counterexample and discuss its implications.
