

Multiple Choice

1. **Answer:** A

Options: A) Critical questioning.; B) Realist logic.; C) State-centric security analysis.; D) All of these options.

Note: Critical questioning represents a move away from traditional interpretations of security studies because it challenges established norms and assumptions, encouraging a more nuanced understanding of security that incorporates diverse perspectives and contexts.

2. **Answer:** D

Options: A) Foreign policies of other states; B) International law; C) Intergovernmental organizations; D) All of the above

Note: The correct answer is "All of the above" because US foreign policy decision making can be influenced by a variety of constraints, including political, economic, social, and historical factors, each of which can shape the priorities and strategies employed by policymakers.

3. **Answer:** C

Options: A) Salaries to employees of the U.S. Post Office; B) Interest payments made to U.S. bondholders; C) Entitlement programs; D) National defense

Note: Entitlement programs, such as Social Security and Medicare, are the largest source of automatic spending for the federal government because they require the government to allocate funds to eligible individuals based on established criteria without the need for annual appropriations.

4. **Answer:** A

Options: A) judicial activism; B) due process; C) judicial restraint; D) ex post facto lawmaking

Note: Judicial activism refers to the approach taken by a Supreme Court that actively interprets the Constitution and laws to promote social change and influence public policy, often by overturning established precedents.

5. **Answer:** D

Options: A) It globalized containment.; B) It militarized containment.; C) It called for the development of the hydrogen bomb.; D) All of the above

Note: NSC-68 changed U.S. strategy by advocating for a significant increase in military spending, a commitment to a policy of containment against the Soviet Union, and the promotion of American values globally, thereby influencing various aspects of Cold War policy.

True / False

6. **Answer:** True

Options: A) True; B) False

Note: Independent regulatory agencies are designed to operate with a degree of autonomy from political pressures, and by including commissioners from both major political parties, they aim to ensure balanced decision-making and reduce partisan influence in regulatory processes.

7. **Answer:** True

Options: A) True; B) False

Note: Socio-economic accounts highlight how the U.S. government's decisions during the Cold War were significantly shaped by the interests of capitalist class structures and economic motivations, such as the desire to contain communism and promote free markets.

8. **Answer:** True

Options: A) True; B) False

Note: In the United States, there are no legal penalties, such as fines, imposed on individuals for failing to vote, making the statement true.

9. **Answer:** False

Options: A) True; B) False

Note: The statement is false because while diplomacy is an important tool in conflict resolution, there are various other methods, such as military intervention, negotiation, and economic sanctions, that can also be effective depending on the context of the conflict.

10. **Answer:** True

Options: A) True; B) False

Note: Human society evolves over time due to various factors such as cultural shifts, technological advancements, and political changes, which demonstrate that it is not a static entity but rather shaped by historical and social dynamics.

Long Form Response

11. **Answer:** Weak states face external challenges in various forms, including economic dependency, military intervention, and diplomatic isolation. Economic dependency can undermine a state's sovereignty, making it vulnerable to external pressures from more powerful nations that may dictate terms detrimental to local governance. Military intervention can destabilize governments, as seen in cases where foreign powers support opposition groups, leading to prolonged conflict and weakened authority. Additionally, diplomatic isolation can prevent weak states from securing necessary alliances or aid, further exacerbating internal issues. These external challenges can significantly impact a weak state's stability and governance, often leading to a cycle of instability that hinders effective political processes and development.

Note: correct because it identifies key external challenges-economic dependency, military intervention, and diplomatic isolation-that weak states face, and explains how each of these challenges can undermine their stability and governance.

12. **Answer:** The political alignment of various groups within the Democratic Party has been significantly influenced by historical and demographic factors, particularly regarding the liberalism of White Southerners. Historically, the South was a stronghold of the Democratic Party, rooted in its opposition to Republican policies during the Reconstruction era and the Civil Rights Movement. However, demographic shifts, including urbanization and the influx of diverse populations, have led to an ideological realignment. While many White Southerners once identified with the party's liberal stances, particularly on social issues, the rise of conservatism in the late 20 th century reshaped their political identity, pushing them toward the Republican Party. Nevertheless, a segment of White Southerners continues to align with Democratic liberalism, often driven by progressive views on social justice and economic inequality, reflecting broader national trends within the party.

Note: The answer correctly identifies the historical context of Southern Democrats' alignment with the Democratic Party due to opposition to Reconstruction and Civil Rights, while also noting that demographic changes, such as urbanization and increasing diversity, have contributed to shifts in their ideological stance toward liberalism.
