

Multiple Choice (10 marks)

1. Herberg's (1955) study of religion in America suggested that:
 - (a) ethnic minorities practised religion to achieve social acceptance in the culture
 - (b) mainstream faiths were becoming increasingly identified with national identity
 - (c) the moral teachings of the main religions were becoming relatively similar
 - (d) all of the above
2. Secularization involves the two related ideas of:
 - (a) disappointment and disproportion
 - (b) disbelief and disintegration
 - (c) disengagement and disenchantment
 - (d) distribution and distillation
3. The social construction of childhood can be traced back to:
 - (a) the introduction of compulsory education
 - (b) increasingly emotional ties between parents and children
 - (c) new consumer goods for children, such as clothes, toys and books
 - (d) all of the above
4. The tripartite system used the 11+ exam to select pupils for:
 - (a) popular schools that lay outside their catchment area
 - (b) private, public and comprehensive schools
 - (c) grammar, technical, and secondary modern schools
 - (d) polytechnics, colleges and universities
5. The effect of the Internet upon the public sphere has been to:
 - (a) repress it, by promoting only the interests of elite groups
 - (b) revive it, by reaffirming a commitment to freedom of speech
 - (c) reproduce it, by emphasizing face-to-face contact with peer groups
 - (d) replace it with a superior form of communication

True / False (10 marks)

Answer True or False

6. True or False: The nation-state is often considered a less important level of society than the office in sociological studies.
7. True or False: Judith Butler (1999) claimed that sexual characteristics serve as the sole biological determinants of gender identity.
8. True or False: The social democratic model, as outlined by Esping-Andersen, is characterized by universalistic benefits and extensive public sector employment.
9. True or False: Bell (1973) argued that post-industrial society would see a revival of traditional industrial production and manufacturing practices.
10. True or False: Race is an objective classification that categorizes individuals based purely on inherent biological traits.

Long Form Response (20 marks)

Answer each question with a clear and complete explanation.

11. Discuss Warner's findings on the 'colour line' in Natchez, analyzing how it reflects social hierarchies and beliefs about racial superiority in the context of the American Deep South.
12. Discuss the concept of social stratification, analyzing its structure, implications for social mobility, and how it shapes individual experiences within society.
